Don

Bailiff Darenth

hello im don

i have been using Bevo's Bait for about 12 months and have had some very good sessions

they include 5x40's 11x30's 15x20's 16 doubles and 3 singles one of them weighing 4lb

most of my fish i has on the bizz

i had a total of 50 fish

don

Hi Guys,

Here's a pic of a 37.12 mirror caught from a tricky private syndicate.
Once again the 'bizz' produced on a tough February 48hr session.

-----------------	----------------------	--

Hi Colin

Having used your dominator and bizz boilies recently on the river ebro in Spain. Fishing short day sessions I have had lots fish to 50lb 8oz and I am exited to be using your baits in the future. Please find attached pic,s of me with a 50lb 8oz fish and a 41lb fish, also my son Luke with a 41lb and a 21lb mirror.

May 2011	Marek	Czech Republic
-----------------	-------	----------------

Dear John,

I'm awfully sorry not to come back to you sooner after April 30th., but as I already wrote before, your bait is succesfull here, although we expected we would sell all the shipment sooner, but anyway, it's top bait with many catches here and anglers are slowly but surely starting to change their traditional bait towards to yours, we sell today through not only e-shop but also through three traditional shops here in the South Bohemia, one on Zavlahy, one in Tyn upon Moldau and one in Budweis.

In the attachement I send you also some snap shots of the fish, we and other anglers cougth on you bait in April 30th. and last week, the most succesfull are untill now

T.K.O. - also 3 sturgeons cougth
The Dominator - big carps and one sturgeon
The BIZZ - big carps and perfect also on rivers
White Strawberry - mainly smaller fish and smaller lakes, till 3 acres

Tangi - mainly smaller carps

now it's less of catch due to carp spawn season, but in few weeks it should be better and we are sure, there will be more success also with other bait, notwithstanding there is no bait, which wouldn't be succesfull at all. but the 5 above are untill now realy top!

Once more my big sorry and wish you

Have a nice day!

Marek

May 2011	Eco-Fish	HUNGARY

At the end of last week we had a fishing tour, where we were testing your products on a Hungarian lake. All testers were very satisfied with the results. You can find some photos of the results here:

----------	------	----------

Hi Guys,

Here's a 24lb mirror from my first trip to a new water on the Cotswold's water park. The fishing was tough with nothing else caught on the lake, but Bevos Squid n Oct done the trick!!!!

We know, that the sales are still not so high but we slowly change the anglers mind and they're starting to order. we dedicate or spend a lot of time this year mainly in getting customers, to convince them, that they should leave the old branches, because BBR is much better and keep them for the long time. We have to show them first vis a vid, your bait is not only more convenient from the price point of view, but it is the best from all sides.

And of course, we will be very happy, if we could cooperate with you on the long term basis, because we really respect you a lot and we are confident, you are really the best bait company we've ever met. Not only your bait, but also personally.

That's why we do and will do promote your products as best as we could and we are absolutely opened to any cooperation in promotion with you (right now there is an event on www.lovkapra.cz, where the 1st. prize is your bait).

So looks our strategy.

Take care

Marek

September 2011	Mareck	Czech Republic DESNA 2011
----------------	--------	---------------------------

Hi John,

I come to you with few words concerning the carp competition, we took in Sept. 28th to Oct. 2nd.

It was a 96 hours competition (3-members-teams – 4 fishhooks) named „Desna 2011 – The end of the legend“. We tried all your baits, finally the most successful were T.K.O. and Ninja Black together with glugged T.K.O. pop-up.

Our final result was – 25 carps and 209,9 kg.

The biggest on had 82 cm and 12,4 kg.

The first day was really a nightmare, after 36 hours we had no catch, after 48 hours 50 kg, after 72 hours 101 kg and after 96 hours finally 209,9 kg.

I don't want to blame our result to bad sector, but we had flat bed with max 2 m depth and to reach 3 m depth we had to throw more then 170 m..... So even to feed the place was little bit knotty and no boat allowed.

But anyway, it was a perfect experience for us and it confirmed again, that you do great job and your bait is top quality! Because FYI, we fed only 60 kg boilie and 120 kg maize and rape, the winning team more than 600 kg boilie and 700 kg maize... So your bait is very attractive by itself!!!

So once more our big thank you for the perfect job you do!

Have a nice day!

Marek

April David Holmes/ Lee Cooper France

we have just got back and the dominator really did well for us,accounting for many sturgeon including the lake record sturgeon at 87lb,(french record according to Frank the lake owner), as well as carp to 41.5lb. Photos will be sent to carp magazines here and will feature in several german magazines (as a german team were doing a piece on the venue)stating the fish were caught on Bevos Dominator boilies.

May Martin Batchalor Whitevane Carp Syndicate Lake West Sussex

A 3 day stint on Whitevane Carp Fishery Syndicate Lake, West Sussex, produced a 3 fish catch.

Using free offerings of Fatal Attraction boilies and added in some Dominator and BBR particle mix I fished 2 rods using a safety bolt rig with suffix camo braided hair with 18mm & 14mm Dominator boilies and wide gape size 4 hook, attached a stringer lightly dipped in Dominator glug fished 1 rod 70 yards into Gravel Bar resulting in a 10lb Mirror, followed by a 12lb Mirror, the other rod to a man made Island also at 70 yards dropping off around a 1ft from the island which resulted in this lovely 29lb 6oz Mirror,

I am awaiting confirmation that I was the first to catch her as this is one of 20 new fish which Adam put in just before Christmas if so then i get to name her, which would make a fantastic end to my session.

Cheers Martin

Paul Shorey

Whitevane Carp
Syndicate Lake
West Sussex

Hi Colin

I have attached a couple of pictures that Paul has given to me. He fished at Whitevane last week and caught a couple of nice Mirrors the first Picture the Mirror weighed in at 25.08oz the second picture again of a nice Mirror weighed in at 25.12oz I did try to upload through the gallery section but not sure if they went through so thought it would be easier this way. they were both caught on the Dominator.

Thanks

Martin

May Colin Darenth Big Lake

decided to have a couple of days on the big lake at Darenth so got there about 2 oclock tuesday morning (11th May)and it was freezing a heavey frost my M8 spence said we were mad should at home still we pressed on and at first lite had a walk around to see what had been out. There was quite a few anglers but all were blanking. So went back to my swim and baited up a bar about 35 yards out with pellet and crushed dominator boilies soaked in 'bevosbait's'gunk and fished over the top with bevosbait's DOMINATOR boilies on the hook snowman style. Kept this up for two days although it was quite cold with a north easterly wind and heavey frost at nite. No one on the lake had caught a thing all round the Lake it was real hard fishing, I put out some more of my ground bait.pellet & crished dominator soaked in bevos gunk and it all payed off 8 30 friday morning 14th may with the optonic screaming out on a full blooded run Ten minuits later I had banked a 34lb mirrow in pristine condition just a fitting end to a hard session thanks to bevosbait

November 2009 Mike cullen Private Lake

hi colin,

don't know if you remember but i spoke to you a few week back,anyway i ended up going for the dominator(and added plum to stop the missus moaning)..i went on my first carp session on a water where not many fish have been coming out. but i managed to have 5 fish out,so to say I'm happy is a understatement, so cheers for the bait.....ps do you roll them in smaller sizes say 8mm-10mm?and do you sell any clothing tshirts etc...mikesent you a pic of the best looking 1

July Colin Bevan Beaver Farm

After some great sessions at Darenth and Elphicks lakes, I decided to take my team of novice anglers to Beavers Fisheries at East Grinstead, to field test our very own, quality prepared, fishmeal boilies, the Dominator and Double Agent. We have been using and providing the Dominator for years but Double Agent at this time was brand new.

We, as novices, had some great results throughout our 1st year of carping, which only goes to prove that Bevos Bait provide 'top notch' bait and we swear by its consistency. Double Agent is my own creation, it has secret additives and it works. Beaver Fisheries is a fantastic complex, with nine lakes, 2 of which are specimen lakes. We chose to fish 'The Snipe Lake', which is 2 and half acres of beautiful water, with 2 islands close to one another, over hanging trees and lily pads. This lake holds Carp up to 45lb and Catfish up to 70lb.
